

How to use a DustBubble

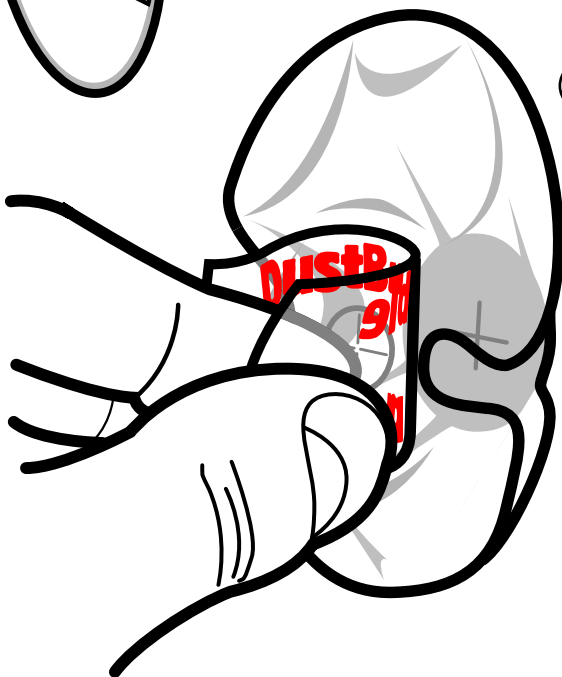

DustBubbles with regular adhesive are suitable for wallpaper, new paint and most tiled surfaces.

DustBubbles with extra strong adhesive are suitable for wood (inc MDF), plaster, plastic and metal

DustBubble®

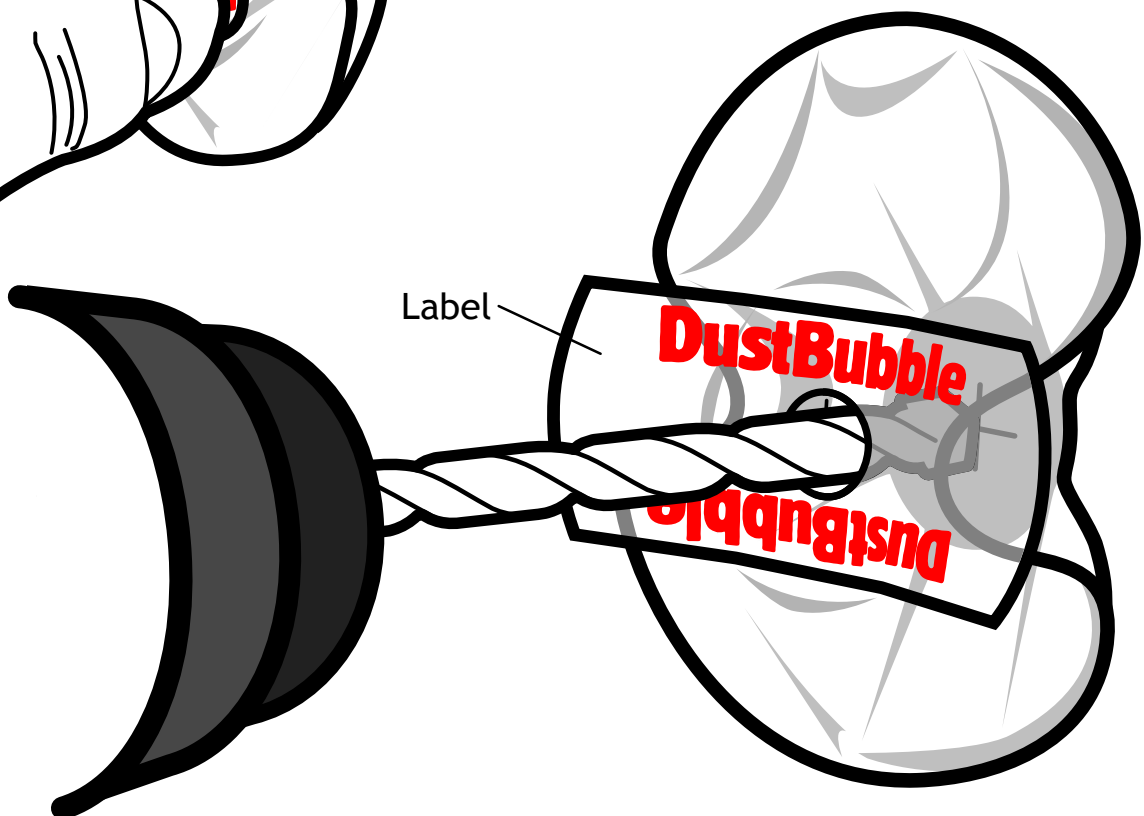

- 1 ▢ Rub the DustBubble between your fingers
 - ▢ to loosen up the plastic, remove the backing tape and stick to the wall.

- 2 ▢ Pull the label to inflate the DustBubble.

- 3 ▢ Push the drill bit through the crosshairs
 - ▢ on the label and drill, keeping the drill spinning on withdrawal.

- 4 ▢ Insert a wallplug through the DustBubble to seal the hole.
 - ▢ To remove, wrap your fingers around the DustBubble and pinch carefully towards the hole.
